Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8, drawn to an adornment article, classified in class 602, subclass 41.
 - II. Claims 9-12, drawn to a method of making an adornment article, classified in class 602, subclass 900.

The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product can be made by a different method, such as cutting the metal and carrier layers separately and then combining them together.
3. Because these inventions are independent or distinct for the reasons given above and the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

The inventions are distinct, each from the other because of the following reasons:
